The custom Fazioli piano in the grand salon is the centrepiece of this stunning home. Thoughtfully laid out floor plans maximize space and the floor to ceiling windows showcase panoramic views of downtown Vancouver and Mount Baker. The dressing room in the master bedroom feels like your own private boutique and the marble clad five-piece ensuite resembles a spa retreat.

Two Bedrooms	20		
Three Bedrooms	28		
Four Bedrooms	2		
Penthouses (Floors 58 - 59)	5		

*Including a double garage for each subpenthouse and penthouse home

Beach District

Applying the “Total Design” philosophy to an entire district and building on the success of Granville Island across False Creek, Vancouver House is not just an architectural breakthrough, but the active core of a new waterfront neighbourhood called the “Beach District”. The concept is to create a diverse and lively zone for living and shopping with a new retail, hospitality, workspace, and cultural community. The Beach District will directly connect with a proposed greenway on top of the Granville Bridge, a panoramic walking and bike pathway to Granville Island and the retail and entertainment district along South Granville.

Year-round destination with restaurants and cafes, one-of-a-kind shops and services, food carts, street celebrations and craft & farmers markets

60,000 sf of Retail

80,000 sf of Office / Workspace

Public Art

“Spinning Chandelier,” by Vancouver artist Rodney Graham is a kinetic sculpture that will transform the vast, cathedral-like spaces under the Granville Bridge.

A second installation of public art will also reside on the underside of the bridge, helping to enliven the nighttime streetscape of lower Granville Street – these are called ‘light boxes.’

Exterior

High performance, triple-glazed curtain wall glazing system which reduces heating demand by approximately 34% and cooling by 28%, and drops noise transmissions by approximately 50%

Anodized aluminum balconies with copper-cladded wall and soffit accents

Structural Design

High strength cast-in-place concrete structure

Horizontal post-tension cables, and vertical post-tension rods to reduce the internal and external forces of the tower

Wind design based on specialized wind tunnel study

At the summit of luxury, taking advantage of the voluptuous and expanding architecture at the very top floors, we have created a limited collection of large homes that we call the Estates. Their every feature offers residents the ability to take full advantage of living on top of one of Vancouver’s tallest and best-located residential towers. The Estates offer forever views and incredible outdoor terraces, but luxuriate in the living space of a single family home.

Building Systems & Sustainability

Vancouver House will be a showcase for leading edge sustainability features. The plan is to achieve LEED Platinum, the first for a residential highrise of this scale, including a linkage to Creative Energy’s district energy system.

Active Building Technologies

Heat recovery ventilation

Low temperature hydronic heating and cooling

Standby generator set for base building backup

Water conservation plumbing fixtures

Highly efficient LED Lighting

Passive Building Features

Vacuum-insulated composite wall panels custom-produced by Dow Corning, ensuring a comfortable living environment while reducing energy costs

Comfort & Wellness

UV treated and carbon-filtered air purifiers

Drinking water faucet with reverse osmosis water filtration system which eliminates contaminants found in standard City water

Elevators

Five centre opening elevators that use premium high-efficiency gearless traction technology offering ultra-high speeds, reduced power consumption, and smooth acceleration

The high-rise elevators are the fastest in Canada, with speeds up to 1,600 ft per minute

Security

Advanced biometric security systems

24-hour digital video recording surveillance of building entry points

Restricted floor access

Underground parkade panic buttons

Rough in for security system for each home

Technology

Vancouver House will offer its residents a complimentary consultation to select a state-of-the-art technology package from the project’s technology consultant one year prior to closing*. *Packages will be at an additional cost

One year free TV, phone and internet services

“One-Touch” master switch at front entry to conveniently turn off all lighting

Roller blinds with electric rough-in

VANCOUVER HOUSE

Waterfront Living

Vancouver House's 55 Estates will boast views of either dynamic False Creek, the maritime heart of the city, or English Bay with its sublime vistas of open ocean, the Gulf Islands, and Stanley Park. This is the perfect location for waterfront access, including the 22 kilometre Seawall, Aquabus service to Granville Island, nearby yacht clubs, and the English Bay beaches. The urban sophistication of downtown on one side, the best of Pacific coast scenery and outdoor recreation on the other – what could be better?

Beach District

60,000 sf of Retail • 80,000 sf of Office & Workspace • Restaurants & Cafés • One of a Kind Shops & Services • Street Celebrations • Food Carts • Craft & Farmer's Markets

Applying the "Total Design" philosophy to an entire district and building on the success of Granville Island across False Creek, Vancouver House is not just an architectural breakthrough, but the active core of a new waterfront neighbourhood called the "Beach District". VANCOUVER HOUSE

Westbank Building Artistry

Established in 1992, Westbank is one of North America's leading developers, with over \$12 billion of real estate projects constructed or currently under development. Westbank projects have consistently led their markets because of design innovation – the creation of value through ideas. Westbank is active across Canada and in the United States, and applies its expertise to a variety of markets: luxury residential, Five Star hotels, retail, office, rental suites, and even district energy systems. The core of Westbank's mission is to create a body of work with a high degree of artistry that improves the cities where we practice.

Luxury Hotels

Over the last few years, Westbank has developed Canada's three leading hotels. Rather than taking a typical formulaic approach, Westbank has forged a new path to the luxury hotel business, from designing uniforms to curating the music, to customizing the Fazioli pianos, and the integration of commissioned art by some of the world's most accomplished artists. Each hotel has its own identity and continues to constantly change and delight its guests. In 2013, Wallpaper Magazine chose Shangri-La Toronto as the Best Urban Hotel in the world, and Travel + Leisure ranked Fairmont Pacific Rim as the Top City Hotel in Canada.

VANCOUVER HOUSE

A Total Work of Art

Vancouver House is the perfect manifestation of the philosophy of total design creating the total work of art – gesamtkunstwerk. The idea is to take total design thinking to a whole new scale. Every aspect of Vancouver House contributes to an integrated holistic vision, the practical and the sublime. Gesamtkunstwerk has become the comprehensive guiding philosophy for all Westbank projects, current and future.

Super Prime

Vancouver House belongs to a unique cohort of residential buildings. Super Prime is a rarified strata of buildings which typically feature some combination of the following: breathtaking architecture, extremely high quality of execution, a key location in one of the world's most desirable cities, a context rich in amenities, and unforgettable views. All of this is pulled together by a talented development team. Vancouver House displays all of these features and more, becoming the Canadian exemplar of Super Prime real estate.

VANCOUVER HOUSE

Every Home a Bjarke Ingels Original

In a world where too much is cloned and un-original, Vancouver House stands out. Opportunities in urban living abound because the architects have found a way to build in subtle variations in their floor plans. The unique structural scheme transitioning from simple triangle to fully rectangular floor plans over 59 floors is the theme in suite layouts here. Consider the possibilities, think of how to use that extra deck or intriguing nook, as Bjarke Ingels Group (BIG) has built in what others only imagine – custom homes. At Vancouver House, you are buying an original – a work of art.

Kitchen & Bathroom Design by BIG

The Estate kitchens are manufactured by Boffi – Italy's leading luxury kitchen manufacturer, and designed in conjunction with BIG, with subtle ways to pick up the architectural language of the building. Westbank deals exclusively with Miele, the world's leading high-end appliance manufacturer, who have curated an appliance lineup in keeping with a building of this quality.

BIG has collaborated with distinguished manufacturer Kohler to design a series of plumbing fixtures that are standard in every home. Vancouver House's bathroom will be the first anywhere to feature these sleek and sumptuous designs, art-works for everyday use, complementing the artistry of the building.

VANCOUVER HOUSE

“ Storage space in homes downtown are at a premium and I am seeing a growing trend with buyers looking for additional storage in the resale market. The cellars at Vancouver House are a rare solution for any storage need that a homeowner may have and see these being a key differentiator in the resale market. ”

Karim Virani Founder of VIRANI REAL ESTATE ADVISORS
