LETTER FROM LANDA

On behalf of the Landa team, we are honoured to unveil the residences at 1818 Alberni, a collection that represents one of the most significant achievements in our history as a community builder.

Defined by striking contemporary architecture by Foad Rafii, the residences are the culmination of a profound collaboration by designers, artisans, craftspeople, smarthome innovators and premiere global brands such as Rolls-Royce and Bang & Olufsen. With Stanley Park and dynamic Vancouver at your door, 1818 Alberni offers an inspiring integration of parkside and cityside living.

This book highlights the exceptional design and careful attention to detail that is evident throughout the collection. From the distinct design to the best-in-class amenities to the state-of-the-art integrated building technology, 1818 Alberni will be a landmark community by Stanley Park for generations. We hope you enjoy the residences as much as we have enjoyed creating them.

Sincerely,
